YOUTHS GATHER LAURELS IN FIELD OF AVIATION.

Huntington can boast of being the home of two boys who are expert aviators. These two are Emmett Callahan and Robert Shank, both of whom left here last spring to purchase a Stinson-Triplane and after attending the Stinson School of Aviation in Chicago have not only received the stamp of approval of the institution but have filled many engagements throughout the country.

While Callahan has soared through the atmosphere to the height of from five to six thousand feet, he admits that Shank, his flying mate has won the greater laurels and is now considered one of the best birdmen in the country.

Shank has become so adept in the art that he has been employed for the winter to teach civilians preliminary to their taking up army training in flying at the San Antonio branch of the Stinson school. Shank has returned to Huntington for a few days, during which time he will appear as a witness at a murder trial at Louisa, Ky. After testifying he will return to San Antonio to take up his duties as an instructor. Canadian pupils will be under him.

Emmett Callahan will remain in Huntington for a few weeks and will then join Shank at San Antonio. The two flyers left their aeroplanes in Chicago several days ago.

"I enjoy flying more than any motor sport I ever entered," said Shank last night. He was at one time considered the speed king of local motorcyclists. Since entering the flying game, however, he has attained a position rarely held by a student of such short training.

"Flying is simple when once mastered. I would much rather be one or two miles above the earth's surface than a few hundred feet. It is much safer and you can count on the wind. Skimming along at the rate of eighty miles an hour, two miles above the earth is the greatest sport in the world," declared Shank.

He will use one of the famous Curtiss army machines while he is instructing Canadians for service in the European armies—Huntington Herald.

Robert Shank is a son of Mr. T. W. Shank, of this place.

The appointments at Pikeville, Prestonsburg and Paintsville were filled. Crowds are reported to have been only fairly large.

Mr. Hughes train consisted of several Pullman cars. It ran to Pikeville during the night.

Mr. Hughes said nothing new in his speech. Wilson has already done nearly everything that Hughes says in a general way that he favors. "In a general way" is the only manner of expression he used, except on the time-worn tariff question. He is still carefully guarding his secrets as to how he would have done in regard to Mexico and Europe.

Morrow Not Here.

Posters were put out a few days ago announcing that Ed. Morrow would speak at Louisa at 11 o'clock yesterday, so as to finish by the time Hughes arrived. The posters also said a brass band would be brought here from Ashland for the occasion, but neither Morrow nor the band appeared.

STRIKE GAS WELL ON POOR FARM IN WAYNE COUNTY.

Huntington Herald.—A gas well has been brought in on the Wayne county poor farm. While the gasser is a small one, it produces about 500,000 cubic feet of gas per day, and this will be sufficient not only to supply the infirmary with fuel and light, but also the court house located at Wayne two miles away.

It is one of the few instances where county governmental authorities have gone into the business of drilling for gas and oil. It is reported that the Wayne county officials intend to continue drilling operations on other tracts of land owned by the county, and thereby hope to add materially to the county funds. This would enable the county officials either to reduce the tax rate, or to create a fund out of which good roads could be built.

The gasser at the infirmary was in the Berea sand.

COUNTY AGENT'S SALARY INCREASED.

Cadiz, Ky., Oct. 5.—County Agent K. L. Varney has been employed for the year 1917 by the Trigg County Fiscal Court at an increase in salary from \$1,500 to \$1,600. This will be Mr. Varney's third year as county agent in this county, and there was a very strong sentiment upon the part of the better element of farmers throughout the county for his employment for another year. The vote stood 6 to 2 in favor of his re-election.

Mr. Varney is a native of Pike county and is one of the most successful county agents in the service. He has what most of them lack—executive ability and qualities of leadership.

FIELDS SPOKE AT LOUISA YESTERDAY

LARGE CROWD HEARS OUR POP- ULAR CONGRESSMAN ON CAMPAIGN ISSUES.

One of the enjoyable features of the big day in Louisa, and one of the attractions that helped to bring in a big crowd, was the speech delivered by Congressman W. J. Fields, at the court house.

A very large and attentive crowd heard Mr. Fields and his speech was certainly well worth listening to. His intimate personal knowledge of the great things done at Washington during the past three and a half years enables him to give his hearers much new and valuable information about the great administration of Woodrow Wilson, and he does it in a most impressive manner. His speech was a credit to any public speaker.

We say deliberately and without any desire to boost Mr. Fields, and believing it to be strictly true, that his speech was one of the best, the most pointed, the most instructive that has been delivered in Louisa by any public speaker for either party. He was heartily applauded. His exposition of the new banking and currency law, and the farm loan law, was remarkably clear and it is regrettable that every citizen can not hear it.

TORCHLIGHT CHEMICAL PLANT NOW ON A SAFE BASIS.

The Louisa Chemical Company at Torchlight is now turning out its product in large quantities and of satisfactory quality. A batch of 2000 pounds came through nicely a few days ago. The company has no difficulty in disposing of the product; as there is only one other plant of the kind in the United States.

The promoters of this enterprise deserve the highest success. They have stuck to it in the face of many discouraging obstacles, but seem to have overcome nearly all of them.

DENTAL OFFICE MOVED.

Dr. F. A. Millard has moved his office to the second floor of the Dr. T. D. Burgess building opposite the front of the court house. He requests us to say to the public that he appreciates the liberal patronage already given him and hopes to merit a continuance of same by doing work in the best possible manner.

SNOOKEY OOKUMS.

Walter, the ten year old son of Mrs. Kate Lockwood, died Saturday night at the home at Savage Branch of diphtheria. The little fellow had been ill only a few days. This bereavement is unusually sad in view of the fact that the father "Cob" Lockwood met an untimely death only a few months ago when a sudden attack of illness caused him to fall and sustain injuries which caused his death.

The funeral was held Monday with burial at the family grave yard. Mrs. Lockwood was Miss Kate Johnston, a sister of Jack Johnston, former O. & B. S. Passenger conductor, and C. R. Johnston, of Louisa.

The ladies of the M. E. Church South will serve a fine turkey dinner Friday evening of this week, from 5 to 9 o'clock, in the building adjoining Loar's store. Read the delicious menu elsewhere in this paper. All for 25c. Ice cream and cake will also be served to those who want it, but will be charged for extra.

Judge W. G. Dearing and Rev. Smalley of this city spoke at the Smith's creek school house in this county Saturday on the political issues of the day, the republican viewpoint at least. It is said the attendance was a frost.

OIL TEST BEING MADE AT BLAINE.

Mr. Albin was in Louisa Sunday from Blaine. He is drilling a well near that town and hopes to find oil in paying quantities. He has about ten thousand acres under lease in that territory. More than thirty years ago R. F. Vinson and others found oil in the Blaine neighborhood in what was estimated to be paying quantities. It was a heavy lubricating oil and was found at a depth of about 400 feet. The best well was drilled on through the strata and water came in so overwhelmingly that they were never able to shut it out, and the precious fluid was lost.

It is hoped Mr. Albin will be successful. He has had a fishing job on the first well, and a driller got a finger cut off. The well is not yet completed.

HERBERT MOORE'S SPEECH AT LOUISA

LAWRENCE COUNTY NATIVE, NOW PROMINENT LAWYER OF WINCHESTER, KY.

Hon. Herbert Moore, of Winchester, spoke at Louisa last Monday. The court house was crowded to the limit to hear this promising young son of Lawrence county who has made good in the Bluegrass region. He made a strong speech for the Democratic party, showing what the great Wilson administration has done, and pointing out the many reasons for supporting the President. His speech was clean and conservative and convincing. He has a good voice, excellent command of language, and much oratorical ability. A large number of country people were in to hear him.

He was followed by a Republican speaker, a Mr. Dalley, who told several bewhiskered jokes, evaded the issues a la Hughes, and attempted nothing more than a little sarcasm and frivolity. That's about all there is left for them, and he carried out the program fairly well.

Mr. Zed Atkins, of Hamilton, Ohio, was in the NEWS office yesterday with his brother-in-law, H. A. Jordan, of Tusculum. Mr. Atkins is a merchant at Hamilton and is doing well. He is a native of Pike-co., and lived in Cincinnati several years before locating in Hamilton. He drove through Wednesday from Cincinnati in his automobile to visit relatives.
